DETAILED ACTION

Current Status

1. This action is responsive to Applicants' amendment of 23 March 2007.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 1-21 are under active consideration in the instant application.
4. The 112 rejections have been withdrawn following applicants' amendment.
5. The 102 rejections of claims 14-21 are maintained because applicants have not amended the claims to overcome the rejections. Applicants' argument and amendments filed 23 March 2007 have been fully considered but they are not persuasive because the prior arts cited disclose applicants claimed silica sol and paper retention aid. Applicants have claimed a product by way of a product by process claim. The Examiner did not give any patentable weight to the process step.
6. The 103 rejections of claims 1-12 are maintained for the reason of record set forth in the Office Action dated 09/26/2006. Applicants' argument and amendments filed 23 March 2007 have been fully considered but they are not persuasive because the prior art cited teaches applicants' claimed process for making silica sol in the presence of guanidine carbonate and a base. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to apply the reaction steps taught by Yates in applicants' process, in order to produce a silica sol.

Merely modifying the process conditions such as temperature and concentration is not a patentable modification absent a showing of criticality. *In re Aller*, 220 F. 2d 454, 105 U. S. P. Q. 233 (C. C. P. A. 1955).

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
